PROFILE

I decided to follow my passion and pursued the knowledge and experience necessary to be a successful engineer. Inquisitive about new technologies and open to ideas. Ability to make good technical decision to effectively push a project to completeness. In pursuit of opportunities and challenges that will advance my skills and career.

SKILLS

Exposure to: Ruby on Rails, JavaScript, Sinatra, Git, API, jQuery, HTML, CSS, Bootstrap

Exposure to: MongoDB, Redis, Devise, Python, Node, Turn.js, Express, Scaling

METHODOLOGY

Agile Development, Version Control(Disaster Recovery), Deployment, Test-Driven Development

PROJECTS

Workout Tracker : Workout app for trainer's and their clients

Created Rails app and encrypted with 128bit encryption to allow safety of our users. Expanded knowledge by incorporating D3 for a graphic-user interface for progress of training. Designed a small but complex relational database with algorithms to query database easily.

Pirateme: Ruby Gem

Published: rubygems.org/gems/Pirateme

Over 162 downloads within the first hour and over 500 on the first day. Created a gem to seed database. Gem is open source for use for other developers to use add or contribute.
